CAPTAIN

"GROWING TOGETHER" - A member of KS Energy Limited

Date: 20th Feb 2007

We had an incident on Java Star 2 at 08:25 hrs.

Floor man Mr. Binh was holding the fill up hose & filling up 7" Liner at the Rotary table level when all of a sudden the fill up hose released from his grip due to back pressure causing mud to spray all over the rig floor IP slipped & and struck his head on deck with hard hat on causing a minor cut at the back of his head on the left side.

He was brought to the rig sick bay for review and the ISOS Rig Doctor examined him thoroughly.

He complained of a headache, dizziness and vertigo. The eyes appear red.

On assessment his vital signs are stable and within normal range. There is a small abrasion over the Left knee and superficial laceration over the occiput. There is no change in his vision.

There is no neurological deficit.

During the past hour his headache and vertigo has worsened.

Worsening symptoms within short time frame needing specialist evaluation.

We need a Medivac Chopper to take the IP for special attention as per the ISOS Rig Doctor

ISOS doctors (HCMC) advise medical evacuation for CT scan & treatment.

Da Van Truong - Rig Doctor

Clifford Fernandes - OIM

Minh - Night Company Man
